

~~TOP SECRET~~

DECLASSIFIED

Authority NLE 2011-50

By MMK NLDDE Date 5/29/12

January 22, 1959

Dear Neil:

Following our telephone conversation yesterday I should like to repeat that I would be most happy to come over and talk with you, Don, and Nate about the aircraft presentation which has been requested. Please just let me know when it will be convenient for you.

If time permits, I would hope that we might touch upon some other matters. Specifically, I would like to suggest:

1. The study which the President directed you, General Twining and me to make which I would describe loosely as the "targeting study."
2. The Hull Board recommendation which has been the subject of correspondence between us. Reference is made to my letter to you of January 7 and your letter to me of 14 January.
3. The implementation of NSC Intelligence Directives and particularly the statement made by Dr. Killian in the special meeting of the NSC on January 15, that there was one particular directive which the Department of Defense was called upon to issue but which has not been forthcoming.
4. The allegation (which I have not sought to document and which may be entirely without foundation) that at ^{Kelley}(Randolph) Field, SAC has established facilities which unnecessarily duplicate existing facilities in the COMINT-ELINT field, perhaps not in keeping with the spirit of the new NSC Intelligence Directives.
5. The whole range of so-called 5412/2 activities.

Sincerely,

Gordon Gray
Special Assistant to the President

Honorable Neil H. McElroy

Secretary of Defense
